## Web based software

Full 365/24/7 access to a unique web based software that gives you fast analyze of the car frame.

Save, print out or email the report for accurate documentation.

The easiest way to see the status for the car body.

## TECH-D Software Advantages

- # Automatic calculation for length and cross measuring.
- # Comparative measurement or option to insert values from the car manufacturer for accurate measurement.
- # Performs pre & post documentation as printout and/or electronic file, measured documentation or electronic file, gives traceability. Option to email the report.
- # Supports all major web browsers ( IE7, IE8, Firefox, Chrome, Opera, Safari).
- # Requires no software installation, except Acrobat Reader (Free from [www.adobe.com](http://www.adobe.com)).

When the values are within tolerance levels, you will get a green confirmation mark.

Just save or print out the pdf-report.

When the values differ more than the tolerance you set, you will get a red warning mark.

Just save or print out the pdf-report.

You can also insert values from the car manufacturer or other control data for the specific car, the software will evaluate the data and give you the result compared with the result from the measured value.

## Digital measuring tool

A perfect tool for diagnosis, repair and quality control.  
Works where it fits best, on the frame rack, straightening bench, lift or floor system.

Light weight measuring arm with an easy to read digital display.

## TECH-D Tool Advantages

- # Quick and easy measuring of point-to-point values (length, symmetry & cross check)
- # Built-in spirit level allows you to compare measurement of height anomalies.
- # Quick and easy measurement of point to point "P2P" dimensions (length, symmetry and cross) of the vehicle.
- # Unique patented magnetic mount allows the measuring to be carried out by only one person.

## Works everywhere - on the lift, bench and rack
